Subject: Additional TAG meeting for fish sampling reference area

Hi Jeremy, Jennifer, and Sean,

We would like to have a brief additional meeting to discuss how different populations of fish from the general forebay area (Forebay proper, Bradford Island, Goose Island) will be differentiated between a Site and Background population. During the previous TAG call, it was suggested that this could be concentration based, however, the Corps would like a better understanding of how this would be done without introducing bias.

We'd like to have up to an hour of everyone's time if possible. We wanted to first confirm an available day/time with all of your schedules before extending the invite out to the rest of the TAG. Below are available time slots for USACE members next week. Please respond all to this email with available times next week within those below time slots. This might be easiest to do by copying/pasting the below dates/times and delete times that don't work for you (or edit them to time slots that do).

8/3 (Mon) : 8:30 - 10:00am, 11:00-1:00pm  
8/4 (Tues) : 8:00 - 9:00am, 12:00-2:00pm  
8/5 (Weds) : 1:00 - 2:00pm  
8/6 (Thurs) : 2:00 - 3:00pm  
8/7 (Fri) : 8:00 - 11:00am

Thank you!
